

**REMARKS**

Applicants amend claims 10. Support occurs at claim 10 at, for example, column 3, line 11, column 3, line 31, column 3, line 48, etc., of the patent specification.

Further, in Applicants AMENDMENT...1.111 filed January 22, 2007, at the bottom of page 13, Applicants offered a paragraph distinguishing Umehara. They would like to expand upon that paragraph with added material underlined:

Umehara describes a radially anisotropic, R-T-B-based sintered ring magnet at col. 5, line 18 to col. 6, line 24 thereof. However, it is clear that from a viewpoint of the disclosure of the raw materials used in Umehara as disclosed in Umehara at column 4, lines 64-66 in view of column 5, lines 8-15, of Umehara, that Umehara's sintered ring magnet corresponds to Comparative Example 5 having a low orientation in Table 4 of the reissue specification.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

SUPPLEMENTAL AMENDMENT UNDER 37 C.F.R. § 1.111  
U.S. Application No. 10/701,020

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,
